

## Information Sheet on the Colloquium

Once a year, doctoral candidates invite their mentoring team to a colloquium, during which they give a presentation to report on the current state of their research. The colloquium should also be used to address possible challenges within the project and to jointly search for solutions.

Timing: The first colloquium should take place about one year after your work on the doctoral thesis has begun. You should schedule the colloquium in the period between the beginning of your 11<sup>th</sup> and the end of your 13<sup>th</sup> month. Invitations to further colloquiums should be made around 24, 36 etc. months after work has begun.

1. Agree on a date with your supervisor and mentors
2. Create an interim report about your work on the doctoral thesis
3. Send an official invitation (e-mail with date, time and place)
  - include the interim report and template for keeping minutes (*Protokollvorlage Kolloquium*)
  - at least 2 weeks before the agreed date
 to the mentoring team, doctoral affairs committee and the doctoral affairs office (*Geschäftsstelle*). If other doctoral candidates are invited to join as an audience, please cc the doctoral candidates' representatives.
4. Send minutes (completed and signed) to the doctoral affairs office

E-Mail addresses of the members of the doctoral affairs committee, the doctoral affairs office and the doctoral candidates' representatives:
